There are also some pretty incredibly talented kids who are fun to watch. I like that it's good for any skill level, any age. Affordable. Well maintained given all the traffic. ... Date of the experiment: July 2018 MickeysBestPal wrote a review Nov 2017 374 contributions 217 useful votes Children have a blast here. Set limits so they don't do crazy things. We saw more than one injury when we are here. They could certainly make the place more comfortable for parents who pay for their children to jump. I hope they choose to upgrade the seat options soon. The free wifi is nice but the soft seats would be even more appreciated.... They have really improved this place over the many years of visiting. We love how much work they put into it to make it one of the best jumping places in the state. They have an incredible area children for the youngest. It's a dangerous place so make sure your kids are careful and understand that they could really get hurt. My kids have fortunately never been injured, but we try to go there when it's not too busy.... Date of the experiment: June 2017 1 Vote useful Helpful Tirviner, The manager and owner does care. We are sorry for the accident your daughter had in our establishment. She wasn't looking where she was going, running through our Open Jump area, and fell under another boy. It was one of a Accident. Our team responded quickly to the accident. Our policy is to call 911 if someone breaks their leg in the facility and that is what we have done. Paramedics took about 10 minutes to arrive. Hang Time has a wheelchair to help those who do not have a broken leg (less serious injuries such as a sprain). All Hang Time participants are required to sign a waiver of liability and say they have insurance to cover an accident in case something like this happens. We strive to keep our fleet as safe as possible, but accidents can occur. This type of accident is rare. We hope your daughter is better. 75 t. tykka-t-st-Kamera/kuva 31 t. tykka tst-With Seven Peaks, the Fun Never Ends!
